

COAL ORDER MAY TIE UP BIG LINERS IN BAY

Japanese liners in San Francisco bay may be tied up here indefinitely as a result of the order issued by the Fuel Administration to prevent vessels from increasing their bunkers with coal in a California port on and after tomorrow.

This is the first severe effect felt in California from the coal famine produced by the war.

The order was issued by the district coal committee of the United States Railroad Administration and by Albert Schwabacher as representative of the Fuel Administration. It firms engaged in the business of bunkering foreign flag vessels fail to live up to the order, further supplies of coal will be withheld from them and stock on hand may be seized, it was announced.

This is declared a precautionary measure to conserve the fuel supply for local industries and the bunker coal supply for American coastwise vessels.

If they haven't got coal in the United States, place the blame where it belongs—on the Federal Government, that allows shortage and high prices, when it has a limitless, unworked supply at its own back door," said E. J. Cotter, a mining and business man, now visiting at the Marx hotel in San Francisco.

He referred to the government fields back of Anchorage, Alaska. The government now has 500,000 tons of coal piled near Anchorage, he said, and could break any famine in the United States by shipping it here on its own boats. By mining the fields beyond, it could keep up the supply indefinitely, he declared.

SANTA CRUZ, Dec. 4.—The capture of five whales in a single day by two boats engaged in the whaling industry establishes a record among the fishermen at the local port.

GLAD HE TOOK FRIEND'S ADVICE

Can Eat Anything, Sleeps Sound and Feels Fine in Mornings

"Since I began taking Tanlac I feel better than I have in two years," said Harry Gehlenberg, who resides at 2014 Clay street, Oakland. "On a Tanlac representative a few days ago. Continuing, he said: "For two years I suffered a great deal with my stomach and had a very poor appetite. I would have such a terrible burning sensation. I also was badly constipated and had to be taking some sort of laxative all the time. I would have such headaches just over my eyes that I would almost blind me, and I would get so dizzy at times I would have to sit down to keep from falling. I was so nervous I would come before my eyes. I had the worst sort of pain across the middle of my back all the time. When I would stop over it was all I could do to keep from crying out. It would hurt me so, I could get but little sleep and would get up in the morning feeling worse than when I went to bed, and I felt tired and worn-out all the time.

Tanlac was recommended to me by a friend and when I took the second bottle I began to feel a great deal better. I kept on taking it and I now have my appetite and sleep. I eat as good as I eat perfectly. I very seldom have to take a laxative, and I am no longer troubled with cramps or burning sensation. I have not had the headache since I started taking Tanlac and never have those dizzy spells. I am not bothered like I used to be with pains in my back. I sleep like a log all night long and get up feeling greatly refreshed. I consider I owe all my present good condition of health to Tanlac and I cannot say enough for it.

Tanlac is sold in San Francisco and Oakland by the Drug Company Stores.—Advertisement.

Oaklanders Return From 'Friendship Trip' Ready to Support Transbay Bridge

Inoculated with the new transbay bridge idea, which, if carried out, will mean the construction of a bridge from Point San Quentin to Point Richmond, in Contra Costa county, thus connecting the upper peninsula with the mainland, a group of Oakland business men returned today from a "friendship trip" to the upper bay counties.

Petaluma business men, who attended a luncheon given by the Chamber of Commerce of that city yesterday, advanced the idea to the Oakland delegation that made the trip under the auspices of the trade extension committee of the Oakland Chamber of Commerce. The suggestion met with approval from both the Petaluma and the Oaklanders, and it is probable that the trade extension committee will make recommendations to the board of directors of the Chamber of Commerce concerning the construction of such a bridge.

SPAN NARROW SPACE
An investigation of the map at the Petaluma luncheon revealed that the distance between the two points is less than five miles. But in between are two small islands which would be available for piers and the water depths and foundations were declared by those familiar with them to be ideal for a bridge.

The "friendship trip" report enthusiastic receptions all along the route of their automobile journeys into Suisun, Napa, Sonoma and Marin counties.

At Napa, they were guests at a luncheon on Tuesday given by the Napa Chamber of Commerce and in return for their entertainment the Oakland men swelled the Napa Red Cross fund by a large sum. More than 100 business men greeted the party at the luncheon, which was

WATER LITIGATION IS FRIENDLY SUIT COUNTY TO HELP PAY FOR STREETS

Misunderstanding as to the purpose of the suit filed in Contra Costa county against the Eastbay Water Company has arisen in the public mind, according to Wigginton E. Creed, president of the water company, who has issued the following statement:

"The Hercules Water Company has not sought to obtain an injunction against the construction of the San Pablo dam nor does it seek or claim any right to interfere with the San Pablo project.

"The controversy between the Eastbay Water Company and the Hercules Water Company arises out of the following facts:

"On May 29, 1908, the predecessors of the Eastbay Water Company made and entered into an agreement with the Hercules Water Company whereby the predecessors of the Eastbay Water Company agreed to supply and deliver to the Hercules Water Company water to the extent of 550,000 gallons per day at a preferential rate. This agreement to deliver water at a preferential rate was made in consideration of the granting by the Hercules Water Company to the predecessors of the Eastbay Water Company of certain water rights on San Pablo and Pinnole creeks which gave to the predecessors of the Eastbay Water Company the right to construct the San Pablo dam so far as the Hercules Water Company was concerned.

"The Eastbay Water Company, as successor of the Peoples Water Company and other companies, has assumed the obligations of this contract and acquired the benefits thereof. Recently the Railroad Commission directed the Eastbay Water Company to discontinue all preferential rates provided for by contracts, including the contract with the Hercules Water Company. There was no course for the Eastbay Water Company to pursue except to obey the direction of the Railroad Commission. Naturally the Eastbay Water Company objects, and has filed suit to establish the validity of its contract.

"The restraining order heretofore issued does no more than preserve the status quo. In other words, it restrains the Eastbay Water Company from interfering with the right of the Hercules Water Company to receive the 550,000 gallons of water per day up to the terms and conditions specified in the contract.

"The right of the Eastbay Water Company to construct and complete the San Pablo project is in no way affected by the restraining order. The company will not oppose the preservation of the contract with the Hercules Water Company. It is perfectly willing to recognize the contract without prejudice and its validity while all parties are concerned, is determined by judicial decree. In fact, it feels that no other course on its part will be justified. The litigation is friendly. It is brought to determine whether or not the contract in existence between the two companies is one which the Railroad Commission can abrogate.

Swine Breeders' Head is Released on Bail

SAN FRANCISCO, Dec. 4.—D. H. Riser, confined in jail since last May under charge of having indicted a score of persons of large social and financial standing, while acting as president of the now defunct Associated Swine Breeders' Association, was released today on \$1000 bail with the proviso that he shall report daily to the United States marshal until he goes on trial on December 18. Riser has been held under \$10,000 bail. He fled for Kansas City when the association was broken up but was returned to San Francisco.

Berlin Pays Tribute to Field Marshal

BERLIN, Wednesday, Dec. 3.—The return to Berlin today of Field Marshal Mackensen was the occasion for a great ovation. The Soviet Guard and troops of all arms were waiting at the station. A number of prominent generals, including Falkenhayn, who was Mackensen's partner in the Hun campaign, were present.

As he emerged in the station, the crowd broke through the line of guarding soldiers and shouted greetings to Mackensen, who wore his military decorations. He was pelted with flowers.

Mexico Propaganda Pamphlets Taken in Local Raid, Burned

The propaganda pamphlet, "The Conspiracy Against Mexico," by Arthur Thomson from which Senator Fall read before the Senate, as an example of Mexican revolutionary propaganda in the United States was one of the pamphlets of which large quantities were burned by ex-service men in their raid on the local Communist headquarters at Loring Hall the night of November 11.

Copies of the pamphlet which have come into the hands of the local authorities bear the imprint of a local print shop which until recently published the "World," a radical weekly, suppressed by the police, and whose editor, J. E. Snyder, is awaiting trial.

Thomson, whose address is at 634 Thirteenth street, where the book was published, denied today that his pamphlet was intended as a defense of the Soviet form of government.

The Soviet was mentioned only incidentally in one paragraph, Thomson pointed out. He declared the book was written entirely on his own initiative, but said he did not care to comment on statements to the effect that his book was being distributed by the Mexican government.

Thomson said he was the son of Dr. J. P. Thomson, an Australian civil engineer and scientist and honorable secretary of the Royal Geographical Society of Australia.

GENERAL STRIKE IN ITALY WILL BE ENDED TODAY

ROME, Dec. 3.—The Socialist party and the Confederation of Labor have called off the general strike, it was announced late tonight. All workers will be ordered to report to their employers tomorrow. It was understood.

A despatch from Milan said four persons had been killed in clashes between strikers and carabinieri. Disorders marked the day throughout Northern Italy, where Socialists called a general strike in most of the larger cities in protest against alleged failure of the government to suppress Socialist disturbances in Rome, several of whom were attacked by Loyalist demonstrators.

ROME, Dec. 3.—Italian soldiers fired upon a mob last night after a day of disorders, looting and duggers. One workman was killed and twelve wounded.

Socialists at Naples held a meeting and it was expected an order for a twenty-four hours strike there, beginning at midnight Wednesday, will be issued.

BERLIN, Dec. 3.—Disorders at various places in Italy have assumed revolutionary aspects, according to advices received here. During a demonstration at Turin, a Socialist Colonel Rossi was seriously stabbed in the back and fifteen other persons were injured.

FLEES FROM BRIG BUT GETS JAILED

Following an abrupt ending of his brief adventure in crime, Johnson Burris, 17, U. S. navy, who escaped from the brig of a training ship at Alcatraz Island, is in the Oakland city prison today, formally charged with having burglarized the room of Peter Gofus, Victorian Hotel.

The stolen wearing apparel was noticed on a pedestrian who gave police information that led to the boy's arrest.

Burris was put in the brig for stealing an automobile in Fresno, after he had deserted the navy. His escape from the brig and second desertion from Mare Island is a deep secret to Mare Island authorities. A thorough probe to determine how Burris escaped will be made, it was intimated today.

Unless navy authorities interfere Burris will be tried on the burglary charge in Police Judge Mortimer Smith's court on December 9. He was arraigned this morning.

BY ASSOCIATED PRESS.
LEASD WIRE TO TRIBUNE.
LONDON, Dec. 4.—Italian regulars will occupy Fiume and the territory included in the treaty of London signed in 1915 by representatives of Italy, France, Great Britain and Russia, according to a Rome despatch to the Exchange Telegraph company. Captain Gabriele D'Annunzio's volunteers will withdraw from Fiume, it is said, under the terms of an agreement reached as a result of negotiations between London and Paris.

ADRIATIC SOLUTION
PREPARED FOR ITALY.
BY ASSOCIATED PRESS.
LEASD WIRE TO TRIBUNE.
PARIS, Dec. 4.—An agreement which it is hoped will solve the Adriatic question has been prepared in Paris by the American, French and British peace representatives for submission to Italy, according to private despatches today. Frank L. Prenter, under secretary of state, and Prenter Clemenceau are declared already to have signed the agreement. It is understood Great Britain is prepared to sign upon which the agreement will be handed over to the Italian plenipotentiary in Paris.

The nature of the proposal is not stated, but they are said to have been framed with a view to satisfying the Italian people.

Why the instrument you buy should be a Victrola

Because it is supreme in beauty and fidelity of tone. Because it is the chosen instrument of the most famous artists. Because it is the instrument of great musical achievements; the instrument which revolutionized talking-machine construction; the instrument which is the one recognized standard in the world today.

Back of the Victrola are the genius and skill which developed the talking-machine from a mere toy into the world's greatest musical instrument; the organization which has the longest experience in producing the modern disc type of instrument; which invented the original cabinet-style talking-machine, the Victrola; which originated all the important talking-machine improvements.

The Victrola is the product of the largest and most complete plant in the entire musical instrument industry; factories which for a quarter-century have been devoted exclusively to the manufacture of talking-machine products; factories whose vast facilities and modern equipment enable us to produce every part of every Victrola right under one roof—the Victrola is the only talking-machine made in its entirety by one concern.

These facts have a direct bearing on the instrument you buy for Christmas. The Victrola is greatest because the company which makes it is greatest. Buy the Victrola for Christmas and you will always have the satisfaction of having the best.

ELOPEMENT IS ALLEGED IN WIFE'S LETTER

Two broken homes as the consequence of the alleged elopement to Oakland from Dallas, Texas, of S. G. Goggin, 142 Ninth street, a motor company for the Dallas Traction Company, with a Mrs. Agnes Smith with whom he is living in the same house as brother and sister, is described in a letter written to the judges of the Superior Court by Mrs. Mamie Goggin.

The letter, which was opened by Presiding Judge T. V. Harris, is the reply of the wife to the divorce suit of her husband recently filed in the Superior Court here in which he charges that she is a nag and is driving him out of the house with the help of her relatives and telling him that she "never wanted to see his face again." He also charges that she is jealous and that she complained when he was on a street car line that ran in front of the house and that it resulted in his dismissal.

AS TOLD BY WIFE
Denying all these allegations, Mrs. Goggin writes that following his alleged intimacy with Mrs. Smith, which she says was the real cause of his dismissal from the Dallas traction service, Goggin came to Oakland on the pretense that he wanted to get away from this woman and that she followed him four days later. Mrs. Goggin says she has learned since that they are living here in the same house as brother and sister.

Mrs. Goggin calls in the letter that Mrs. Smith called her up on the phone in Dallas after her husband had left and told her that she was going to leave her husband and come to Oakland to meet Goggin, and she afterward found out that Mrs. Smith had done so. Mrs. Goggin avers that she is fully prepared to contest the divorce suit with witnesses and says that the suit was a surprise to her until the papers were served upon her.

"SHUDDER" PROMISED
"I will tell things to make them shudder," concludes Mrs. Goggin, "if my husband persists in forcing this suit. Ask him if he will force me to unfold his whole life to the world."

Mrs. Goggin will be notified that it is necessary for her to file an answer and cross-complaint to the suit in the regular way in order to contest the proceedings and make her counter charges. According to the husband's divorce complaint, the couple were married at Marietta, Ga., in December, 1917. There are no children.

BIRMINGHAM, Ala., Dec. 4.—The Birmingham Post-Herald papers have increased their retail copy price, due to the paper situation. The News and Ledger, afternoon papers, have raised their price daily from three to five cents. The Ledger's Sunday paper goes from five to ten cents, and the News and Age-Herald Sunday editions from seven to ten cents. The Daily Age-Herald remains at five cents as before the paper shortage.

HISTORICAL OLD FRENCH OPERA HOUSE BURNS

NEW ORLEANS, La., Dec. 4.—The historical French opera house, the scene of the debut in the United States of Adeline Patil and where many of the most noted singers of the world have been heard, was destroyed early today by fire. The loss was estimated at \$200,000. The opera house was erected sixty years ago, being formally opened in December, 1859.

SURPRISE AWAITS ANARCHIST PAIR

NEW YORK, Dec. 4.—That a surprise awaits Alexander Berkman and Emma Goldman, when they are surrendered at Ellis Island tomorrow noon for deportation, was hinted today by Bryon H. Uhl, acting commissioner of immigration at the island.

"I understand the department has something up its sleeve," he said, "but I don't know just what it is." Uhl disagreed with the contention of Harry Weinberger, attorney for the two anarchists, that they must be deported to Soviet Russia. Such action cannot be taken until the United States recognizes the Bolsheviks.

"The law provides for deportations to the countries whence the aliens came," he said, "they can be deported to Russia regardless of changes in government." The large number of "guests" now at the island may result in Berkman being put in a room with some three score other male radicals who recently conducted hunger and silence strikes, while Miss Goldman may have to join Ethel Bernstein and Dora Lipkin, who also were on strike.

The constant quest for grazing area has caused the Bedouins to become a roving race.

"SHUDDER" PROMISED
"I will tell things to make them shudder," concludes Mrs. Goggin, "if my husband persists in forcing this suit. Ask him if he will force me to unfold his whole life to the world."

Mrs. Goggin will be notified that it is necessary for her to file an answer and cross-complaint to the suit in the regular way in order to contest the proceedings and make her counter charges. According to the husband's divorce complaint, the couple were married at Marietta, Ga., in December, 1917. There are no children.

PRINT PAPER SHORTAGE.
INDIANAPOLIS, Dec. 4.—Because of the print paper situation the Indianapolis Star will next Sunday increase the price of its Sunday edition from eight to ten cents.

BIRMINGHAM, Ala., Dec. 4.—The Birmingham Post-Herald papers have increased their retail copy price, due to the paper situation. The News and Ledger, afternoon papers, have raised their price daily from three to five cents. The Ledger's Sunday paper goes from five to ten cents, and the News and Age-Herald Sunday editions from seven to ten cents. The Daily Age-Herald remains at five cents as before the paper shortage.

ARREST NEAR IN VALLEJO SLAYING

SAN FRANCISCO, Dec. 4.—Arrest of a well-to-do San Franciscan in connection with the case of Miss Rose M. White, stenographer, who died in the office of Dr. Frank Thomas here after an illegal operation, may be expected soon, police announced today.

The man responsible for the girl's condition has been named and his whereabouts is known, said Captain of Detectives Duncan Matheson. This information is said to have been obtained from Mrs. Blanche Stratton, former roommate of Miss White. She was questioned for four hours yesterday afternoon by Policewomen Katherine Eisenhart and Katherine O'Connor.

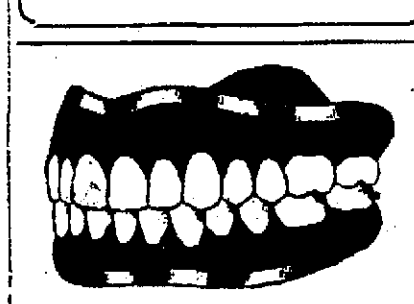

As soon as the name was obtained the authorities sent for Mr. and Mrs. G. Andrew Campbell of Vallejo, parents of the dead girl and they were questioned last night regarding their knowledge of the accused man. Mrs. Stratton also admitted, according to the police, that she was aware of Miss White's death several hours before the morgue was notified. As a result of this new evidence Dr. Thomas' bonds have been raised from \$2000 to \$5000. He was ordered back into custody until the additional amount was furnished by M. Weintraub, a local wine merchant.

Bonds of Miss Monica Folger, Dr. Thomas' nurse, were allowed to remain at \$2000.

Pay Fancy Prices for Barreled Water

MARYSVILLE, Calif., Dec. 4.—Three former saloon proprietors of Marysville paid \$500 for three barrels supposed to contain whisky but holding pure water, Sheriff Charles J. McCoy said yesterday. The sale was made by three strangers who arrived in an automobile and departed the same way. McCoy said, and added that the victims did not intend to prosecute.

Ashes to Aid in Restoration Work

BERLIN, Dec. 4.—The technical authorities for the restoration of France and Belgium announce that they have discovered that furnace ashes from glass, iron and steel works stimulate vegetable growth enormously through carbonic acid fertilization. All plant life is said to be spurred to unusual growth. These ashes may be applied to restoration of the devastated districts.

WELL, WELL, IT'S UMBRELLA TIME AT LAST
The recent rains have brought into the store, a great many people who were without umbrellas when the storm started. It is a strange state of affairs, but most people neglect purchasing an umbrella until they have been caught in a rain storm. We doubt if we have ever shown a better stock of umbrellas. Our assortment of ladies' fancy silk umbrellas is exceedingly attractive. We also have umbrellas for school children and, of course, as is usual, a great array of umbrellas for men in all the styles of handles that the men most prefer and in the qualities of fabric that give the sort of service men demand.

BUY HER SOME WRITING PAPER
Writing paper is always a welcome gift. No one ever has too much correspondence material. Our holiday assortment of boxed papers with envelopes to match has now arrived and we have some exceedingly attractive novelties to show you. Most of these papers are of Highland Linen, one of the best moderately priced papers in America. Our assortment of paper and envelopes in boxes ranges from 50c to \$6.50 a box.

A Necklace for Christmas
---one for every complexion

There's the lovely amber string. Its mellow lights tantalizingly play back and forth, eager to compliment dark eyes and hair.

Look at the blue Tibet chain that deepens azure eyes.

Note the black onyx in its bewitching contrast to a soft white neck.

Examine the Chinese hand carved ivory necklaces. A bead of jade or tourmaline lends variety to the long ivory chain.

See these lovely necklaces yourself, a few as low as \$21.

A Store of
Good Service

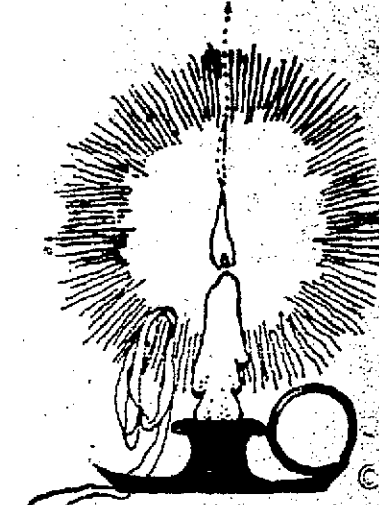

Oakland
California

Beautiful, New, Christmas Stocks have taken full possession

CHRISTMAS SERVICE to you is probably our greatest service during the year.

The additional favor of the public which we are receiving, has given us that enthusiasm which has resulted in most wonderful gift selections—in a far greater variety than ever before and at prices the lowest the market affords.

The store is filled with everything it might seem you would care for in gifts for friends or relatives.

Use Butterick Patterns

Christmas sewing

The very newest styles in doll clothes. Complete catalogue of embroidery designs and suggestions for Christmas work in the BUTTERICK TRANSFER BOOK. Gowns for holiday and winter functions can easily be made from the stunning patterns in the WINTER FASHION BOOK. —First Floor, near 15th st. entrance

Silk Lingerie

It isn't woman's nature to regard silk lingerie otherwise than with the keenest delight. Its daintiness and soft luxury appeal to her sense of beauty. The fact that silk launders easily and wears long satisfies the practical side, too.

SILK ENVELOPE CHEMISES of flesh wash satin and crepe de chine charmingly trimmed with lace and ribbons. Many styles — \$3.95, \$4.95 to \$27.50.

SILK CAMISOLES of rare beauty—\$1.25, \$1.75 and up. —Lingerie Shop, Second Floor.

Christmas Gift Silk Hosiery

Full, complete, plentiful in every sense of the word—our regular unsurpassed holiday assortments are at your disposal now. Nothing is to be gained by waiting as far as Christmas silk hosiery is concerned.

Any purchase of silk hosiery for a gift will be placed in a holiday box.

Rich, plain silk hosiery—\$1.50 to \$6.75.

Fashionable fancy silk hosiery, lace, embroidered clocks, lace clocks, lace boots as well as allover lace—\$3.50 to \$6.75.

EDITORIAL

The wholesale supply of Waterman Fountain Pens is limited and the manager of this department informs the writer that Bowman's now has practically all of the sterling silver and gold mounted models.

As agents for Waterman Fountain Pens, we always carry a very large assortment and our stock at the present time is no exception to our general rule, but we are afraid that before the season is over, we will be out of the higher grades, particularly the sterling silver and gold mounted models.

METAL HOT WATER BOTTLES

Have you ever tried using a metal hot water bottle?

Of course such a bottle is practically indestructible and, by some people, they are preferred over the rubber bottle.

These metal bottles are fitted into a soft flannel bag so that the body does not come in contact with the metal and they retain the heat in a very satisfactory manner.

If you want a hot water bottle that will stand all kinds of rough usage, it might be a good idea to purchase one of these rather than the rubber bottles, which have to be given proper care.

Metal hot water bottles \$1.25 each.

Lynwood Rubber Bottles \$1.75 each.

WHO WANTS A CAMERA?

Do You Know Anyone Who Has No Camera?

If so, why would it not be a good idea to make him a gift of one. We have Brownie cameras at prices ranging from \$2.58 up. These cameras are very simple to operate, require absolutely no adjustment and are just the thing for children or for grown people who do not wish to take the trouble to focus and adjust a Kodak.

These Brownie cameras, as a rule, take sharp, clear pictures and some of our customers seem to get better results than from the more expensive Kodaks.

If, on the other hand, you wish to purchase a camera that will take pictures under varying conditions, we can advise you that you select a Kodak.

The price of Kodaks range from \$9.49 upwards. It might be of interest to you to know that photography is now being taught at the Technical High School and persons interested in educating themselves as good photographers, can join these classes at the beginning of the term.

WHAT ABOUT THOSE KODAK ENLARGEMENTS FOR XMAS?

We have repeatedly called your attention to ordering your Christmas photo enlargements now.

Always just before the holidays, we are handicapped by congestion and are compelled to disappoint many of our late customers. You probably realize that in many instances, an enlargement of a Kodak picture, attractively framed, makes an ideal gift.

These enlargements are very inexpensive and by shopping around a little, you can always pick up a frame for a small additional amount. By combining the two, you have a present that has personal interest and finds a welcome place in the home of the recipient.

The main thing, however, is to get these orders for enlargements in time for Christmas.

THE "EVER-SHARP" THE BEST PENCIL

We are engraving initials free on all Ever-sharp Pencils selling for \$3.00 and over.

The latest designs in Ever-sharp are the new engine turned models. These new designs sell at from \$4.00 to \$25.00 and we have them in 14-Karat gold, gold filled or sterling silver.

We sell Ever-sharp at prices from \$1.00 up and have a triple plate silver Ever-sharp for \$1.50.

HAVE FRENCH IVORY INGRAVED

Make Your Selection Now

A gift of French Ivory is always more appreciated when monogrammed or initialed.

If you make your selections now, we will be able to have this work done for you before Christmas. On the other hand, if you delay until the last few days, you will have to make the gift without this added attractive feature or give the recipient some excuse for your negligence.

Our holiday assortment in this department is now practically complete and you can probably make a more satisfactory selection now than if you wait until the stock has been partially sold out.

There is no gift that is more appreciated by women than French Ivory.

Remember that in addition to the ordinary boudoir articles such as brushes, combs, mirrors, etc., we have a great variety of the other items such as clocks, picture frames and small vases.

INDIVIDUAL WATER SETS

An Ideal, Inexpensive Gift

One of the handiest articles in our store is an individual sleeping room water set, consisting of a carafe or water bottle with a glass that fits over the neck of the carafe.

These sets are of etched glass and sell for 50c each.

If you know of anyone who is in the habit of drinking a glass of water during the night or of any person who is ill in bed, one of these sets would be a most welcome gift.

The carafe holds just about enough water to fill the glass.

ELECTRIC LAMPS: SILK SHADES

Mahogany Finished Bases

You may be surprised to know it, but this store carries electric lamps with silk shades and mahogany finished bases.

Recently, when one of our buyers was in the East, he was offered a shipment of these lamps at an exceedingly reasonable figure and thinking that our customers would appreciate the values, purchased them.

These lamps come with extension cord attached and make very attractive table lamps. The silk shades are of good quality in attractive colors and the mahogany bases are calculated to match your parlor furniture.

We have them in four styles priced at \$2.95, \$5.50, \$16.00 and \$20.50.

GALE IS DUE TO PLANETARY ACTS

BY PROF. ALBERT F. PORTA.

Not only the opposition of Venus with Mercury (Oct. 2), was responsible for the earthquake shocks felt in Central California on Nov. 25, but likewise it produced the eruption of Mt. Lassen on Nov. 26, 27, 28, and also it has been partially responsible for the heavy hurricane and cold weather of Nov. 26-27.

But the main cause of such a terrific gale was the accumulation of the planetary electro-magnetic energies produced by the sun spots which have been generated by the conjunction of Jupiter, Saturn, and Neptune respectively, on Oct. 9 and 22, and the conjunction of Mercury with Uranus on Nov. 14.

The same planetary causes have also produced the terrific earthquake at Nativia (Asia Minor), on Nov. 2-28.

The violent earthquake shock which occurred in Laguna (Italy), on Dec. 2, was produced by the sunspot generated by the conjunction of Mercury with the earth, which just happened on Dec. 2.

All these terrestrial disturbances were specifically forecasted in The Oakland Tribune, respectively, on Oct. 27 and Dec. 1 by Prof. Porta, who said that all of them are to be considered as new advertisements of the League of the Planets, which will be effective on Dec. 17 and which will powerfully affect the earth in different places and at different dates, but no catastrophes or catastrophes will occur.

The violent earthquake shock which occurred in Laguna (Italy), on Dec. 2, was produced by the sunspot generated by the conjunction of Mercury with the earth, which just happened on Dec. 2.

Husband Sees Wife Kissing on Highway

When Harry Hazeltine and his mother and sister were riding in an automobile on the Tunnel road a few months ago they passed another machine in which were a man and a girl, the latter with her arms around the man, who was driving, while she kissed him enthusiastically.

"Did you know who that was?" asked the mother, when they had passed.

"Yes," said Hazeltine, "that was my wife."

This was the testimony given before Superior Judge L. C. Robinson today in Hazeltine's divorce action against Mrs. Irene Hazeltine, whom he married in Oakland in 1912. Judge Robinson granted him an interlocutory decree.

HOW TO DARKEN GRAY HAIR

A Cincinnati Barber Tells How to Make a Remedy for Gray Hair

Mr. Frank Berchough of Cincinnati, Ohio, who has been a barber for more than forty years, recently made the following statement:

"Anyone can prepare a simple mixture at home, at very little cost, that will darken gray hair, and make it soft and glossy. To a half-pint of water add 1 ounce bay rum, a small box of Barbo Compound and 1/4 ounce glycerine. These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It is easy to use, does not color the most delicate scalp, is not sticky or greasy, and does not rub off."—Advertisement.

Gifts of Lasting Usefulness

WOMEN are proud to have beautiful "Wear-Ever" in their kitchens—the quality-utensils that are in keeping with the finest home furnishings. Because of their shining silver-like beauty, the daily convenience they afford and the better cooking they make possible, "Wear-Ever" utensils are most welcome Christmas gifts.

"Wear-Ever"

Aluminum Cooking Utensils

give enduring service. They do not chip or scale. They are made of metal so thick and strong that it withstands the hardest usage—does not readily dent or bend. "Wear-Ever" utensils are made in one piece, without joints or seams in which food can lodge—are pure and safe.

"Wear-Ever" utensils are the most economical utensils it is possible to buy. They cost least in the long run. A complete "Wear-Ever" equipment saves the bother and expense of constantly buying new utensils to take the place of utensils that have worn out.

In the face of the present high price of footwear, this noteworthy sale should become doubly interesting!

END CAMPAIGN ON CHRISTMAS SEALS EARLY

Winds and rains have made no difference in the sale of the Red Cross Christmas Seals which the Alameda County Society for the Study and Prevention of Tuberculosis is offering in a campaign ending on December 10 that through the penny sales, the little children, the men and women who are victims of the white plague may be healed.

Mrs. Stanley Moore is directing the downtown drive, establishing in public places—the department stores, hotels and government buildings, the holiday booths where the attractive stickers which are used in sealing the Christmas mail and gift boxes, are being offered by a corps of women leaders representing society, the clubs, fraternal organizations and the churches.

The banks are in charge of the following women: First National Bank, William Havens, Central, Mrs. William T. White, White, Mrs. Joseph Rosborough, Broadway, Mrs. de Lisle Oakland Savings, Mrs. Arthur Tashelra, State Savings, Mrs. Frank Reed, Mrs. Thomas Hogan is in charge of the public buildings. At the Hotel Oakland Mrs. Guy Lillien-erant is being assisted by Mrs. Wiggington Creed, Mrs. Idolene Crosby, Mrs. Peter van Nieuwen Janssen, Mrs. Edwin Oliver, Mrs. F. W. Round-walle, Mrs. Charles Gray and others.

Mrs. John Perline is directing the sale of seals in the Smith Brothers store, with the co-operation of Mrs. William Jenkins, Miss Booth, Mrs. W. E. Montgomery, Miss Margaret Musser. At the baby hospital, Mrs. Clarence Holmes is in charge, with Mrs. Almerice Coxhead and Mrs. Charles J. Youngberg her aides.

Alameda county has set \$10,000 as its quota in the sale of the Christmas seals. Twenty-five per cent of the receipts will be devoted to national effort. Seventy-five per cent will be spent in Alameda county, maintaining the record of the county in California where tuberculosis is not on the increase.

Opening of the children's ward at Arroyo Sanitarium early in January will greatly assist in the local fight against tuberculosis.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. It never had hair to look in that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But, brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyle's Sage and Sulphur Compound," you will get this famous old preparation improved by the use of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.—Advertisement

VARIETY IN THEFTS

Wines, lace curtains and shoe soles figured in the police reports of thefts committed in Oakland last night. The richest haul was from the cellar of Mrs. Alice Pomas, 720 Peralta street. The lace curtains were stolen from the home of Mrs. M. Nathan, 727 Washington street, and the shoe soles from A. Wolf, 1639 Broadway.

FIRE LIMITS MAY BE CHANGED SOON

As a result of denunciation of the present city fire limits by the City Council yesterday, an ordinance revising the existing fire zone, straightening the lines and taking out numerous pockets, will be laid before the Council by Commissioner of Streets W. J. Bacus, who charges that the lines of the limits as they run now are unfair and discriminating.

When the case was discussed before the Council yesterday Bacus intimated that some one had profited financially by the juggling of the map.

The ordinance prepared by Bacus will offer an amendment to the old fire limits ordinance, which designates certain districts within which only Class A, B and C buildings of steel, concrete or brick may be erected.

A SERIOUS CHARGE.

When Senator Fall of New Mexico charged on
the floor of the Senate yesterday that the Mexi-
can embassy at Washington and the Mexican
consulates-general at New York and San Fran-
cisco have been actively engaged in the distribu-
tion of Bolshevik propaganda in this country he
indicated what may be irrevocable cause for the
severance of diplomatic relations between the
United States and the government of Senor Car-
ranza. It only remains to produce the proof of
the senator's charges. Whether the additional
accusation that the work was conducted with the
knowledge and consent of President Carranza is
true or not does not greatly matter. The agencies
mentioned are official Carranza agencies and the
President of Mexico cannot escape responsibility
for their conduct.

Distribution of Bolshevik propaganda in this
country by official representatives of the Mexi-
can government is something more than an un-
friendly act. It is a positive act to aid revolution
against the American government. It is a cause
for war and an act of war. That Carranza's
agents have committed such a grave offense is not
impossible, but if so it will be the first time a
representative from a friendly government has
gone so far. If the charge is sustained every
consular and diplomatic agent of Mexico should
be sent out of the country forthwith.

Such action would not add significantly to the
gravity of the relations between the Carranza
regime and this country. There have been more
formidable causes for a rupture during the last
five years than this. But it is plainly necessary
that Mexico understand there is a limit to ag-
gressions beyond which she cannot go. Even if
under the present administration, the country
must bear the pitiful spectacle of having its citi-
zens wantonly murdered or unlawfully impris-
oned and their property confiscated or destroyed
in Mexico, the territory of the United States in-
vaded by armed bands of plunderers and assas-
sins, and the adoption by the great government of
the United States of a policy of paying tribute to
brigands, it is clearly that we resolve that these
are all the outrages that we shall suffer.

If the government of Mexico and its agents in
this country are trying to foment social discor-
dian and promote revolution they must go just the
same as every other criminal foreign agent. Sen-
ator Fall's charges are serious and must be sub-
stantiated or withdrawn. If they are true, then
the Mexican Bolshevik agents must get out of the
country. No parleying, no waffling, should be
indulged in this connection.

CHRISTMAS IS NEAR.

Only three weeks remain until Christmas. If
you have not already done so, think now of the
salesfolk in the stores, the postoffice clerks and
letter carriers, the express company employees and
delivery men. It is a commendable deed to
spread cheer at Christmas time by the giving of
presents. But cannot we be consistent about it?
While remembering the friend or relative, why
not at the same time endeavor to make the hard
days of those whose business it is to serve the
public as light as possible?

Shop now and there will be no necessity to
crowd the stores during the last two or three
days before Christmas. That will be the means
of saving the men and women who wait upon
you from overwork when they go home to ob-
serve the glad holiday.

Purchases to be sent out of town by mail or
express should be bought and despatched at
once. The train service is far below normal, the
letter-carrying force throughout the country will
have extraordinary tasks to perform this season.
There may be delays, with every precaution
taken. If you want to be sure your friends in
other cities will hear from you it is the better
part of wisdom to get your gift off at once.

The Christmas packages can be stored away

at home until the time to open and inspect them
arrives. Try and be a community helper, show-
ing a community spirit of kindness and compas-
sion. Shop now and thus help make it possible
for everybody to enjoy Christmas day.

CONSERVING HEALTH.

Surgeon-General Rupert Blue, in a statement
made public a few days ago, called attention to
these facts:

"Preventable disease cost the United States
four billion dollars less in 1917 than it would
have had the health conditions of twenty years ago
prevailed in 1917. Over 400,000 less deaths oc-
curred in 1917 than would have had the 1900
death rate prevailed. Annual illness of workers
still costs this country two billion dollars an-
nually. One man in every three called under the
army draft in 1917 and 1918 was found to be
physically unfit.

"In 1900 the general death rate from all causes
in the United States was 17.8; in 1917, the latest
year for which figures appear to be available, it
had been reduced to 14.2. Had the 1900 death
rate prevailed in 1917 there would have been in
the United States, with an estimated population
of 110,000,000, 296,000 more deaths than actually
occurred.

"The record of other years leaves little room to
doubt what may be done in saving life. In 1900
typhoid fever caused a death rate of 33.8 per
100,000 population. In 1917 the rate had been
reduced to 13.4. Diphtheria was reduced from
35.4 to 16.5 in the same period. Tuberculosis de-
clined from 130.5 deaths per 100,000 of population
in 1900 to 116.4 in 1917. Had the 1900 rate pre-
vailed in 1917, typhoid fever, diphtheria and tubercu-
losis, in 1917 these three diseases alone would
have caused 91,740 more deaths than actually
occurred."

Progress in reducing the disease death rate is
naturally slow, but some headway is being
achieved. A lot yet remains to be done, however.
And a lot will be accomplished when the authori-
ties and all the public, semi-public and private
organizations in the country are brought into
direct communication upon some sort of a gen-
eral health-promoting program and policy. The
federal Public Health Service is planning to call
a national-wide conference to which all health
agencies will be invited and a program of coopera-
tion submitted.

Many agencies already have under considera-
tion some comprehensive plan of health conserva-
tion—such as the American Red Cross, the Ameri-
can Public Health Association, the Ameri-
can Medical Association, the National Tubercu-
losis Association, the International Health Com-
mission, the National Safety Council, the Ameri-
can Child Hygiene Association and others. These
programs should be made to synchronize if the
maximum of efficacy is to be expected. State and
municipal health officers should follow the con-
ference which Surgeon Blue will assemble with
the closest attention.

General Leonard Wood is the choice of South
Dakota Republicans for the presidential nomina-
tion in 1920. The convention vote Tuesday was
Wood, 2599; Lowden of Illinois, 1522. Senator
Miles Poindexter of Washington, who vigorously
sought the Republican endorsement, did not make
a showing. Governor Calvin Coolidge of Massa-
chusetts, was the choice for the vice-presidency.
A convention in South Dakota may not, as the
first held in the country in connection with the
1920 presidential campaign, be of much signifi-
cance in ascertaining the nation's sentiment. But
the fact remains that if the entire country should
coincide with South Dakota in expressing a judg-
ment upon the candidates whose names were sug-
gested, it would occasion very little surprise.

Mr. Henry C. Frick, who died Tuesday, was
one of the thousand millionaires which the Pitts-
burgh coal, coke and steel industry has produced.
A colleague of the late Andrew Carnegie, he was
one of the leading figures in the development of
that industry. He leaves a large fortune, prob-
ably more than Mr. Carnegie retained from his
numerous philanthropies. How much he con-
tributed to the wealth of the country through the
influence of the products he helped to convert
into virtually world-wide necessities is impos-
sible to calculate.

A boom in shark fishing is reported in Hawaii.
The natives are catching the fish for their skins,
for which there has developed a considerable de-
mand. This industry ought to be free from in-
terference on the ground that the shark may be
exterminated. Yet some objection is almost cer-
tain to be raised.

ACT BY BALLOT.

The best and surest way to make America
better and safer is to vote thoughtfully and con-
scientiously. Nothing is more disastrous for the morals
and welfare of a nation than violence, with all its
hatred and destruction. All the energy, common
sense and wisdom of the citizen must be directed to
the task of voting and to try to settle all important
questions in a peaceful and sensible way. Good, real citi-
zenship is not a matter of words, it is a matter of
action, and it must be done. They must bear in
mind that they have one of the most precious things
that they can possess—the right to vote—which gives
them the possibility to select and elect the very best
men and women as representatives in the legislative
bodies to stand for their interests, just as they
themselves would stand for their own interests, but
without which life is not life, but a mere
perpetual nightmare.

If only thoughtfully and conscientiously used, the
right to vote brings abundant blessings upon the
citizen, their children and their country, good legis-
lation and legislation, good life conditions and educa-
tion, good employers and employees, prosperity and
peace.

What more could be desired? The "magic vote"
can give all these things, and there is no need to
resort to violence. Every good citizen has a
duty upon American citizens this magic wand, and
they have only to use it wisely to have all they desire.
It is the strangers within the gates have but to be-
come naturalized, and all these blessings will be
showered upon them.—Washington Post.

NOTES and COMMENT

We are now advised of a new
chicken affliction, the "sniffles."
Perhaps there is no justification for
an epidemic, but the idea is al-
most sure to occur that the price of
eggs may be expected to go still
higher. A hen with the "sniffles"
is not likely to be in that cheerful
frame of mind that will increase the
egg output.

The I. W. W. in the Tacoma jail,
who set out to worry the jailers by
a hunger strike, thinking that
forcible feeding or release would re-
sult and themselves thus be accorded
a more prominent place in the public
mind, have called the strike off.
After striking for six days without
the result that was looked for, they
turned to and are now actively at-
tacking hunger strikers go ahead and
strike thus demonstrated to be the
scientific and successful treatment
for this ailment.

It is not to be denied that the
President in his message struck
high notes as to some national
affairs that are to the fore. But if
his attitude had been made as clear
at the inception of some of the
movements that now have too much
headway, the task of maintaining
civilization's statu quo would be
easier.

Judge Anderson, who enjoined the
coal miners, now has something to
say about the operators. In his
opinion they have not lent them-
selves to the relief of a situation,
but have profited. Between the
miners and operators the shivering
public is being "bled," according to
this outspoken magistrate. It is at
least a relief to have the situation
vigorously characterized.

Senator Poindexter is a candidate
for the presidency and announces to
that effect. Governor Coolidge may
become a candidate, but not on his
own motion. He doesn't appear to
regard it as a matter in which the
tooling of one's own horse is security.
If he becomes a candidate it will be
from the genuine urging of others.

The Prince of Wales regrets that
he is unable to visit the Pacific
Coast, which would of course in-
clude San Francisco. One thought
in this connection is, What would
have happened if he had come? The
municipal body of the great city
gave the "president" of the "Irish
republic" a \$150 gold plate. What
would it have done for the Prince
of Wales?

Senator Fall, in urging that Sec-
retary Lansing be kept in continen-
tial by Congress in his efforts to
bring Mexico to time, proposes sen-
sible American action. The secre-
tary is much more likely to get de-
sired results if it shall appear that
the American nation is squarely be-
hind him.

These several persons who were
confident they were Carlist in con-
science, their claim being fortified
with the information that they were
old acquaintances and could not be
mistaken—will be interested over the
news that he has been captured in
his Wyoming lair, from the vicinity
of which he never appears to have
escaped. Though his Carlistance was
reported in many sections besides
California.

Evelle Howard, who wants to
be Congresswoman from the First Dis-
trict, is showing some speed. In
driving to the Republican confer-
ence in San Francisco last Friday he
exceeded the speed limit by nearly
ten miles and was cited to appear
in Santa Rosa on the 25th. Evelle
explained that he was in a hurry to
"get there" and the little red car
paper was torn up. If Evelle gets
the nomination and shows the same
speed there is no question about his
election.—Lakeport News.

The danger to motorists of pick-

ZARA—ON THE ADRIATIC

Zara, where Gabrielle d'Annunzio
is reported to have landed, and its
location relative to Fiume, passing through
the gate, we enter the narrow
paved streets of a typical Italian
city, such as we may imagine it to
have been two or three centuries
ago.

The cathedral, which is the town's
most interesting architectural feature,
and containing works of art. The cathedral
in particular, a majestic Roman-
esque church, is richly adorned with
many arcades of little columns and
inside with marbles and paintings.
It is in the best Italian style of the
Middle Ages. Its campanile is a
landmark.

"Wandering among the narrow
streets, we come upon several open
squares and market-places, where
in the morning scores of peasants
may be seen in their brilliant-col-
ored costumes. There are Roman

passing among innumerable islands.

pears, we go through it, and find
ourselves in the spacious harbor of

the water to a fort crowning the

TODAY 20 YEARS AGO

J. D. Dow, aged 54, and one of the
pioneers of Oakland, died early this
morning at the home of his son,
City Attorney W. A. Dow. He came
to California in 1849 and to Oakland
in 1857.

The directors of the Board of
Trade met and select the Bacon
property, at the corner of Fifteenth
and Franklin streets as a site for
Oakland's new postoffice.

A vehicle license tax ordinance is
discussed in the city council. It
provides for a tax of \$4 per year
for horseless carriages.

LOOKING TO THE FARMERS.

From all parts of the country—we
might say from all the world—comes
appeal for "something to tie to." Any
stabilizing influence is like a cooling
draught to a fever patient. Under
such conditions special significance
attaches to the attitude of the farm-
ers as revealed in local and in na-
tional assemblages. It is unmis-
takable and it is gratifying and reas-
suring as it is plain. The feet of the
farmer are on the ground, his head
is cool, his mind is clear and his
memory good. He has learned well
that talk, legislation and wind-eyed
isms are mighty poor fertilizers for
his turnips. Many, many times a
day he encounters the fact that get-
ting something from nothing and
keeping it is a dream—a nightmare.
rather. And don't forget that the
farmer and tiller of the soil will de-
fend his home and his country to
the last ditch.—Kennebec Journal.

ADVISES COOLIE MINERS.

While the miners and operators
are cudgeling each other with
words and one is about as much
opposed to the interests of the con-
sumer as the other—Congress
would do well to suspend the alien
immigration law so as to permit
the introduction of coolie labor for
use in the mines. The Chinamen
would be willing workers and work
for low pay, the weekly wage of a
miner being enough for a life's en-
dowment for some of them. They
would be absolutely free of Bolshe-
vic influences. The latter recom-
mendation is the superior one.

While some of the States are tak-
ing over the mines within their con-
fines and proposing to operate them
with a reasonable profit credit to
the owners, the way for getting
needed labor may be advanced, as
above. The people of this country
have little more attachment for
Slav and like labor than they have
for Chinese labor, and the latter
complaint, the greater need for
loyalty and diligence and efficiency.
If there was seriously proposed a
measure looking to this solution of
the mine strike, the men are smiling
at the way they gave assent to the
bill, knowing that it would not
be respected by the men, would
have reason to take second thought.
The same is true of the operators
who proceed upon the assumption
that the public, in its opposition to
the miners' strike, is with the op-
erators.—Baltimore American.

SYNDICALIST CONVICTION TO BE APPEALED

Case of McHugo, I. W. W.
Organizer, to Be Carried to
Higher Courts; Jury Decides
Guilt on the First Ballot

As a final test of the criminal
syndicalism act, for violation of
which James McHugo, former local
secretary and organizer of the I. W. W.,
was found guilty after five
minutes' deliberation of a jury in
Judge James G. Quinn's court last
evening, appeal of the case to the
Supreme Court of the State is to be
made by McHugo's counsel, William
B. Cleary, who represented McHugo.
Believes that the law will not be
approved by the high court.

Such a test case will be welcomed
throughout the state, in the belief
of the district attorney's office and
public prosecuting officers. According
to Fenton G. Thompson, inspector
of police who arrested McHugo, a
clarification of the law will assist
police officials and others in applying
it wherever it is applicable.

FIRST CONVICTION
McHugo's conviction is the first
which has been achieved under the
act. There is one Supreme Court
decision on a similar law in Minne-
sota, but no other precedents upon
which court or attorneys may act.
McHugo's appeal is also to be based
upon alleged irregularities in the
conduct of the trial.

Although the jury was ready in
five minutes to pronounce its ver-
dict, the court's inability to locate
McHugo delayed the rendition of the
verdict for nearly an hour. Judge
Quinn sought to appoint Attorney
Fred Dubovsky as temporary counsel
for McHugo during the reading of the
verdict, but Dubovsky requested to
be excused. Finally McHugo agreed to
hearing from the jury if it was stipu-
lated that his rights would not be jeopard-
ized and it was so stipulated.

ON FIRST HEARING
John Ellis, 2336 Eleventh avenue,
was foreman of the jury and read
the report of the verdict. According
to the report, the jury was unani-
mously reached on the first ballot.

The case was conducted for the
State by Deputy District Attorney
John L. Calkins and A. A. Rogers.
Following the rendition of the ver-
dict the former said:

"McHugo was tried and convicted
for being a believer in teaching
of the I. W. W. The jury, by its
decision, held that the organiza-
tion, its doctrines and practices are
contrary to the laws of California
and to public policy. The I. W. W.
propaganda was on trial in this
case. It was shown that the or-
ganization has sought to gain politi-
cal and industrial control by means
unmistakably violent."

To this District Attorney Ezra
Decato added:
"It is the beginning of the end for
those who would destroy our indus-
tries, wreck our institutions and
overthrow our government."

SENTENCE SATURDAY
McHugo is to appear before Judge
Quinn for pronouncement of sen-
tence Saturday morning. The law
fixes an intermediate sentence of
from one to fourteen years for the
felony of which he is convicted.
The act under which McHugo was
charged was passed by the last legis-
lature and became a law April 30
of this year. It defines criminal syn-
dicalism as the effort or intent to
overthrow the industrial or political
system of the country by violence of
destruction, and anyone who be-
comes a member of an organization
preaching such a policy or prints or
publishes or distributes or offers for
sale any of its literature is guilty
thereof.

McHugo was arrested May 23 in
the local headquarters of the I. W. W.,
of which he was organizer, by
Inspector Thompson. A considerable
quantity of radical literature was
taken from the hall. A bundle of
pamphlets on "Sabotage," by Eliza-
beth Gurley Flynn, were taken from
beneath McHugo's bed.

TRIAL IS PROLONGED
The defendant was on trial for
more than four weeks. A week and
a half was taken in securing a jury,
and as long in the presentation of
the State's case. This included the
testimony of local and Federal in-
vestigators, persons who claimed to
have been damaged by I. W. W. acts
and former members of the or-
ganization. Several members of the
I. W. W. were placed upon the stand

Civic Center Will Heal Its Wound by Adopting Resolutions of Loyalty

Mrs. Frank G. Law, president of
Oakland Civic League, is sending out today a call
for a special meeting on Saturday
afternoon at 2 o'clock in Hotel Oak-
land, to present a resolution which
will affirm loyalty to the govern-
ment and good citizenship. It is the
answer which Mrs. Law, the board
of directors and members of the cen-
ter, make in answer to the question
which has arisen concerning the at-
titude of the organization in allow-
ing Miss Charlotte Anita Whitney,
now under arrest charged with crim-
inal syndicalism, to occupy the plat-
form on Friday last week.

In issuing the call for the special
session the president has the sup-
port of opponents and proponents of
the Friday program. Members only
will be permitted to participate in
the conference upon a showing of
membership cards or receipt for
dues of this year. No new members
will be allowed to join the organiza-
tion on this occasion. The formal
proclamation reads:

"At the request of opponents and
proponents of the issue at the last
meeting, this president has called a
special meeting on Saturday, Decem-
ber 6, at 2 p. m. at Hotel Oakland.

by the defense, which declared later,
however, that it had been impossi-
ble to secure the attendance of several
witnesses whom it had sought to
substantiate. Both sides offered con-
siderable documentary evidence culled
from publications of the organiza-
tion.

Throughout the trial Cleary had
associated with him Emmanuel Le-
vin, who recently was arrested in
San Francisco with other members
of the People's Institute and charged
with a similar offense. Levin acted
as Cleary's clerk. Also associated
with the defense in the earlier stages
of the case was John G. Lawlor, a
San Francisco attorney. Cleary was
one of the attorneys who appeared
for the defense in the Chicago I. W. W.
trials. He has practiced at Bis-
bee, Ariz. from which place he was
deported along with the 1136 strik-
ing miners who were driven from
that city and at Los Angeles.

CONTENDING CASES
Cleary will be cited for contempt
of court unless he gives an immedi-
ate and sufficient explanation of his
disappearance at the conclusion of
the trial and before the jury re-
turned its verdict.

This was the declaration of Judge
Quinn this morning when he learned
that Cleary had not appeared. He
said that he had given an explanation of
his conduct. Cleary was seen taking a
train for San Francisco directly after
the conclusion of the trial, according
to a report to the district attorney's
office.

A vigorous prosecution of one
other criminal syndicalism cases now
pending in the Superior and Police
Court will follow the successful con-
clusion of the McHugo case. Dis-
trict Attorney Ezra Decato an-
nounced today that he said that he
would hold a conference with
Police Inspector Fenton Thompson re-
garding the evidence obtained
against the various defendants and
their cases would be brought to
trial as soon as the court calendars
permitted.

Two cases against alleged vio-
lators of the state criminal syn-
dicalism law are now pending in the
Superior Court. John G. Weiler,
alleged to have written threatening
letters to Captain of Detectives
Walter J. Petersen, will be placed on
trial January 14 and Axel Nelson,
alleged I. W. W. arrested during the
raids in May by Inspector Fenton
Thompson, will go to trial on Janu-
ary 17. Cases pending in Police
Court include Miss Charlotte Anita
Whitney, member of the Defense
League, recently arrested following
her speech before the Oakland Civic
Center.

U.C. STUDENTS STAGE RALLY FOR BARROWS

New President Paid Honor by
Body Gathering in Rain
Before California Hall,
As He Answers Welcome

BERKELEY, Dec. 4.—Standing
in the rain before California Hall,
several thousand students at the
University of California staged an
impromptu rally yesterday after-
noon in honor of Dr. David P. Bar-
rows, their new president.

Grouped on sophomore lawn, the
students were led by Vell-Leader S.
N. Mering in the college yell, the
"ohs," which was followed by sponta-
neous cheering until President
Barrows appeared to answer their
welcome.

President Barrows expressed his
gratitude for their support and
briefly mentioned the subject which
has been one of the issues of the
presidential appointment from the
students' point of view, the question
of maintaining student self-govern-
ment.

"You may well be solicitous for
student self-government," said Bar-
rows, "for although the Americans
are a practical people and trust gov-
ernment in the hands of their rep-
resentatives, this trust will only last
while those representatives function
properly, and as long as the people
themselves live up to the require-
ments laid down by their representa-
tives."

"I intend to follow the policy of
President Wheeler, who was re-
sponsible for the introduction of
self-government into this institution,
and student control will remain as
long as it is properly used, and as
long as it functions for all of the
students of the university."

President Barrows further stated
that his office hours would continue
the same as those of the old admin-
istration and that the door of his
office would always be open. He in-
vited the students to consult with
him and allow him to keep in touch
with their activities.

Following Dr. Barrows' appoint-
ment Tuesday as successor to Dr.
Wheeler, members of the associated
students of the university discussed
various plans of welcoming the new
president to the university as exco-
utive, and endeavored to find a means
of assuring him of their loyalty and
support. The rally held yesterday
was purely an impromptu affair,
and it is expected that some definite
action will be taken by the students
as a body to greet Barrows.

New Automobile Parking Ordinance Will Reduce Time Allowed Vehicles

Following a long conference be-
tween Commissioner of Street W. J.
Bacaus and representatives of the
Merchants' Exchange, the San Fran-
cisco-Oakland Terminal Railway
and the Draymen's Association, a
new automobile parking ordinance
is under preparation by Bacaus and
will be submitted to the city council
within a few days, reducing the
time allowed vehicles for parking in
the central business section from 40
minutes to 25 minutes.

As soon as the new ordinance,
which rescinds all other ordinances
regulating parking on the business
streets, is passed by the council the
merchants will demand of the coun-
cil that steps be taken by Commis-
sioner of Public Health and Safety
F. F. Morse to provide better traffic
regulation on the downtown streets
and an increase in the number of
traffic policemen will be suggested.

TRAFFIC POLICE SHORT
According to a statement made
by Commissioner Bacaus the new
ordinance "will not be worth the
paper it is written on unless the
proper steps are taken to enforce
it." At present, Bacaus says, there
are three traffic policemen for the
entire city, and Sergeant J. M. Fahy,
in charge of the traffic enforcement,
is threatening to ask to be relieved
unless he is given more help.

At the conference that resulted in
the new ordinance being agreed on
vigorous protest was made by the
representatives of the three interests
against the length of time machines
are allowed to stand at curbs in the
busy section and the spokesman for
the traction company declared that
unless something was done to re-
lieve the congestion the company
would discontinue the loop system
around Washington street at Twelfth
and Thirteenth streets.

The draymen laid down the defi-
nition that they would refuse to deliver
goods to merchants excepting at cer-
tain hours of the day unless the
present law is changed.

**Teacher Finds Fish
Dyed During Night**
SAN FRANCISCO, Dec. 4.—When
Miss Virginia Heath, 2331 Pine
street, principal of the Reading
school at Pine and Larkin streets,
entered her room in the building
today she was amazed and angry to
discover that miscreants during the
night had turned order into chaos.
Desks and chairs had been upset,
drawers pulled out and their con-
tents scattered broadcast and gen-
eral havoc wrought. But the mis-
deed that provoked Miss Heath most
was that the invaders had emptied
a whole gallon of ink into a large
aquarium, badly changing the com-
plexion of the inhabitants.

BARKENTINE THRASHER IS POSTED LOST

The barkentine Thrasher, form-
erly a steam whaler operating out
of Oakland and owned by Harry
Knowles of the Pacific Steam Whal-
ing Company, was today posted as
lost by the Marine Exchange of San
Francisco. She is thirty-eight days
overdue from San Francisco to At-
telle.

The Thrasher left here October
26, where the vessel was to have
gas engines installed in place of her
steam power. It was the intention
of the owners to use the vessel to
replace the Belvedere, which was
wrecked in the ice in the Arctic
ocean on September 17 last.

The barkentine sailed in command
of Captain Walter C. Erratt, Alaska
pilot, with a crew of ten hands, and
has not been heard from since. Cap-
tain Erratt's home is in San Fran-
cisco, where the crew was staged.

MET WOMAN DAILY SO WIFE CHARGES

John Lincoln Derrick, insurance man of 721 Union street, has secretly met almost daily for five months, a married woman not his wife and on whom he has been spending his earnings, according to the divorce complaint of Mrs. Mabel Derrick, filed with County Clerk Gross.

Mrs. Derrick also charges that her husband told her he had no more affection for her and that he compelled her to work to pay the household expenses. They were married in 1902. Mrs. Derrick asks for \$40 a month. The community property consists of the home on Union street.

Mrs. Dorris Adeline Bauman, suing Arthur W. Bauman, says that although they had been married only since last New Year's day, he left home Thanksgiving day telling her

he hoped he would not find her there when he returned, as a result of which she went to her parents' home at San Anselmo. She charges that he struck her, choked her and applied offensive epithets to her.

Joe H. Kegans charges that Mrs. May M. Kegans deserted him in August, 1916, after four years of married life. He asks for the custody of their one child, Ethel May, age 6.

Assailant of Foster is Adjudged Insane

SAN FRANCISCO, Dec. 4.—Following an attempt to take the life of A. W. Foster, capitalist and former railroad man by shooting in front of the Southern Pacific building Thursday, Michael Jacoby, 69, has been adjudged insane by Superior Judge J. J. van Nostrand.

Testimony showed that Jacoby pulled the trigger of his pistol three times, aiming at Foster, but in each case it failed to explode. Then he was disarmed. Jacoby was formerly a Southern Pacific laborer. He was committed to the Stockton State hospital for treatment.

BUCK'S ATTORNEY STUDYING DEFENSE

REDWOOD CITY, Dec. 4.—Attorneys for the various defendants today are studying the suit filed by Mrs. Mayella Ann Thompson McCarthy, clubwoman and society matron, accusing Superior Judge George H. Buck of aiding in fraudulent contrivances her divorced husband, Dr. Charles F. McCarthy. Defendants in addition to her husband and Judge Buck are George W. Hall, brother-in-law of Dr. McCarthy, Attorney A. Kincaid and the Bank of Italy. All these are charged with "a wicked, unlawful and fraudulent conspiracy."

The action of Judge Buck in sending her to jail for five days last month for contempt of court, growing out of a long squabble over settlement of her differences with her former husband, is declared by Mrs. McCarthy in her suit to have been "capricious, cruel, arbitrary and unjust."

She also accused the judge of forcing her to sign a document conveying property to her brother-in-law as trustee when no legal obligation existed.

"This is my final hope of obtaining fair dealing and I am hoping that the courts will see the merits of my contention," said Mrs. McCarthy after the filing of the suit.

Exhausted Oil Wells Now Spout Salt Water

TAMPICO, Nov. 20.—It is announced that some of the oil wells in the Gulf region of Tepehate, in which are located some of the biggest producing wells in the republic, appear to be exhausted and are now flowing salt water instead of petroleum. Production in this region has totaled more than 100,000,000 barrels annually. Geologists who recently surveyed the region have advised drilling further south. The first big well in Tepehate was discovered nine years ago and development has been rapid since.

News of the Churches

FIRST PRESBYTERIAN.

Rev. Frank J. Smith preached Sunday night at the First Presbyterian church on the subject "Shall We Broke and Healing for the Body?" He said:

The church has unfortunately been too much under the domination of medieval spirit and given only scant recognition to Christ's ministry to the body. A study of the life of Christ proves that he was deeply interested in the people, not only for the sins of the people but the ills of the people.

"Christ is the great physician known as the great physician and cured miraculously all the incurable diseases of his day. He was the great physician of the body today when we forget prayer and the sacredness of the means used in medicine. He is the great physician of the body today. The fact is that the ordained way is means, for Christ is the great working physician has no successor."

What we must do, however, is to spiritualize medicine and the hospitals and the healing professions. Materialism is too autocratic.

"We need to go back to Christ and feel in his wonderful sympathy for the sick. It will be the day of the Lord when science and the hospitals are not only lovers of humanity but holy unto the Lord."

"One of the greatest surgeons on the Pacific Coast is a consecrated Christian man who offers silent prayer for help before each operation. And the number of wonderful operations that he has performed almost stagger human belief."

The woman with the issue of blood for twelve years was cured because she touched the hem of Christ's garment. And there should be the connection today between the operation of the prescription and the hem of Christ's garment.

"Christ not only blesses a healing ministry, however, but he heals the disease itself of man. By his power he casts out selfishness, unbelief, passion, envy, and makes man whole spiritually as well as physically."

OFFICIALS OF THE STEAMSHIP LINE.

Officials of the steamship line have set their investigation department to work to solve the mystery of the gold's disappearance. The coin was shipped by the Anglo and Paris National bank August 2, on the T. K. K. liner Korea Maru, and the substitution was not discovered until the strong box was opened by the Hongkong consignee.

Three old and trusted employees of the Anglo bank certified to the correctness of the shipment. It was conveyed under guard to the T. K. K. docks. According to officials of the steamship line, the combination of the strong room is changed each trip and is known only to the purser. The liner stopped at Yokohama, Nagasaki, Manila and Kobe before reaching Hongkong. It is not known at what ports the strong room was opened. The bank officials believe the substitution occurred on the steamer in Hongkong before the shipment reached the bank.

S. F. Fire Fighters Barred From Unions

SAN FRANCISCO, Dec. 4.—Members of the city fire department are forbidden to join a labor union or any organization with power to call a strike in action taken last night by the board of fire commissioners. A firemen's union was organized here three months ago and chartered by the American Federation of Labor. According to Commissioner Sykes, who investigated the union, only about thirty of the fire-fighters out of a force of 800 are members, and the staff generally is opposed to the union. Last night's action will mean that the union must dissolve, it is said.

PARIS WARMS MEXICO.

PARIS, Dec. 4.—French newspapers are paying some attention to the Mexican situation, printing the most important of the despatches dealing with the possibility of military action by the United States. They point out in connection with the situation, that French investors have about \$400,000,000 in Mexican enterprises which are not paying dividends.

FILM MANAGER FOILS BANDITS

LOS ANGELES, Dec. 4.—Henry Christine Warnack, former newspaper writer and at present producing manager of a local film company, early today enacted the leading role in a real plot that was not in any written manuscript when he outwitted two bandits who attempted to rob him near Huntington Park.

According to reports made to the sheriff's office, Warnack was driving his automobile along Long Beach boulevard when he noticed a machine almost completely blocking the road.

The film manager slowed his car but as he did so an armed bandit stepped into sight and ordered him to throw up his hands.

Warnack swerved his car to the side of the road and a moment later stepped on it as he saw a second bandit appear. Warnack sprang to Huntington Park and notified Deputy Marshal Bossart. The bandits escaped.

Telephone Service Crippled by Storm

Many telephone wires and cables in various parts of Oakland were blown down during last night's storm, reports of the telephone company showed, and throughout some sections of the city telephone communication could not be had.

The greatest single piece of damage is believed to have been done on Bancroft way, at Grove street, in Berkeley, where a full block of telephone cable fell to earth as five poles snapped off at the ground. The force of the wind here was greater, as it had the advantage of a full vacant block.

John Ince—Aw, come on in Vi, the water's fine!
Viola Dana—No siree! I'm not going to get all wet!

Mistaken Formalities in Marriage Rites Result at American

"Come on in," demanded John Ince, picture director, and Viola Dana, fair movie comedienne, refused to go into the briny deep. "I'll bet you wouldn't be so slow about jumping into the sea of matrimony," retorted Ince, and Viola said she would. That gave him the big idea—and he made her jump into the matrimonial sea, only to find it camouflaged, for he starred her in "Please Get Married."

"Please Get Married," famous Morocco play, this week at the American theater, stars Viola Dana in a story in which she thinks she's married but isn't, and a lot of comical complications will run all week. The play is Pauline Frederick's, brated star in Arthur famous play of a woman Loves of Letty.—Adv.

MR. MORPHEUS HAS A FINE TIME AT THE AUDITORIUM SCRAPS

Five Knockouts and Then Fans Go to Sleep When Main-Eventers Tug and Wrestle.

By BOB SHAND

THE little four-rounders tried to convert our beautiful municipal auditorium into a lodging house last night and they partly succeeded. Out of eight battles five go down in the record book as knock-outs and after some of the preliminary boys had taken their nap numerous cash customers got the spirit of the affair and slept peacefully through four rounds of alleged boxing that "Gunboat" Smith and Carl Morris offered. The heavyweight fracas was called a draw which was plenty fair enough. They were both equally bad. To start the evening off Jack Russell, manager of Morris, conceived a brilliant idea. Jack wanted the Marquis of Waterbury rules to prevail.

And everything above the ankle, should be permitted, and Mr. Russell, Jack did not insist on Morris being armed with a meat axe and a repeating rifle, but he was headed off before he got that far. Russell's idea was that Morris being half as big as Smith and being a regular rough guy in the ring would have a fine evening's fun, leaving on the little gunner and slugging him on the head. The fans were denied this exciting spectacle when the referee refused to tolerate such methods. Russell was forced to agree to a fight in to do a turn with the good old Queensberry rules and if he was so good about the Waterbury rules, he was as good as dead. The referee worked the boys down on the mat, and let go for the tummy. The gunner hung on to protect his precious head, and in the first minute they did all night. Occasionally when broken apart, Smith would try to get a good punch in, but he was not allowed to. The referee worked the boys down on the mat, and let go for the tummy. The gunner hung on to protect his precious head, and in the first minute they did all night.

MAJOR'S SON IS APPOINTED AS CHAUFFEUR

Fred Davis, son of Mayor John L. Davis, was appointed to the position of municipal chauffeur and assistant to the city clerk in a resolution adopted by the city council today.

When the resolution was brought up it appeared that Davis is about the only one who knows nothing of the appointment, and there may be some question as to whether he wants the job or not.

"I will ask you to make this appointment," asked Commissioner W. J. Baccus when the resolution was introduced, by Commissioner W. H. Edwards.

"No, he did not," replied Edwards.

"Why should you do it without consulting him?" asked Baccus.

"No, may not want the job and we don't know whether he'll take it or not."

"He'll take it," said Commissioner Edwards, and Commissioner E. F. Morse added that Davis had given good service while in the municipal office several years ago.

The position will be filled by a man combining the duties of chauffeur to the commissioners and assistant to the city clerk. The ordinance creating the position was passed several weeks ago after the adoption of a measure abolishing the job of private chauffeur to Mayor Davis.

Davis was chauffeur for his father several years ago when the mayor first secured his official car.

Safety Precautions in Tunnels Issued

Rules governing safety precautions which must be taken by persons employed or employing others in tunnels to satisfy the Industrial Commission are prescribed and published by the commission for distribution. The rules became effective December 1, 1919.

Details of the construction of a tunnel and means of setting up of machinery are prescribed, and the quality of materials used in all construction work in tunnels are covered as well as rules governing the organization of laboring crews working on tunnel work.

Shell Shock Victim is Found in Hills

LOS ANGELES, Dec. 4.—Samuel Mayer, Dallas, Texas, discharged soldier, who had been missing from Santa Monica two days, was found last night in the hills back of Playa del Rey. He had wandered away while suffering from shell shock sustained in France.

ASPIRIN SHOULD BE TAKEN RIGHT

Bayer Company, Who Introduced Aspirin in 1900, Give Proper Directions.

"Bayer Tablets of Aspirin" can be taken safely for Colds, Headache, Rheumatism, Neuralgia, Joint Pains, Neuritis, and Pain generally.

To get quick relief follow carefully the safe and proper directions in each unbroken package of "Bayer Tablets of Aspirin." This package is plainly stamped with the safety "Bayer Cross."

The "Bayer Cross" means the genuine, world-famous Aspirin prescribed by physicians for over eighteen years.

Handy tin boxes of 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer-Manufacture of Monocetate of Salicylic Acid.—Advertisement.

BLISS NATIVE HERB TABLETS

Don't be a health slacker, and allow yourself to be run down. As soon as you feel the first signs of rheumatism, or suffer from Constipation, Sick Headache, Neuritis, or any other ailment, take Bliss Native Herb Tablets and you will find a marked improvement in health and vigor.

Bliss Native Herb Tablets are recognized as the standard herb remedy for cleansing the system, regulating the action of liver and bowels, and restoring the body to its normal state of health.

A dollar box contains 200 tablets, and lasts the average family six months. It is the only medicine that can be taken without the least harm. Put up in two sizes, 50c and \$1.00.

Sold by leading druggists everywhere. Made by Alfonso O. Bliss Co., Washington, D. C.

COMMON WITCHHAZEL FINE FOR SORE EYES

It is surprising how quickly eye inflammation is helped by common witchhazel, camphor, hyacinth, etc., as mixed in Lavoptik eye wash. One elderly lady, who had been troubled with chronic eye inflammation for many years, was greatly helped in two days.

We guarantee a small bottle of Lavoptik eye wash to cure any case of eye trouble, or refund the money. Aluminum eye cup FREE. Osgood Brothers, druggists.—Advertisement.

A Simple Way to Reduce Wrinkles

Remember that wrinkles and bagginess of cheek or chin are due to loss of elasticity. The skin is then too large in area to fit such tissue smoothly. It sags and sags.

To remedy this condition, there's nothing so effective, so quick acting, as a simple wash lotion made from a few drops of pure powdered axolotl from your druggist and a half pint of witch hazel, mix the two and rub the face in the liquid. This at once tightens the skin and solidifies the underlying tissue, which has been sagging. It also stimulates capillary circulation, bringing natural color to faded cheeks.—Advertisement.

Wm. S. Sullivan Named Richmond Boost Secretary

William S. Sullivan

New Chamber Picks Its First Executive; Membership Drive to Begin

RICHMOND, Dec. 4.—By a unanimous vote, William S. Sullivan was last night elected the first secretary of the Richmond chamber of commerce. Although organized over two months ago, the chamber of commerce has been handling without a regular secretary at its head.

The election of Sullivan came after a thorough search for an acceptable man. The new secretary took office last night with the approval of every one of the 153 members of the organization.

Robert E. Coffey, advertising man for many local business houses, who has voluntarily been acting as secretary, was voted thanks by the members. Coffey's business affiliations prevented him from being a candidate for the position.

Sullivan declared this morning that he would make his first official step a campaign for new members. Although the big business men at the city are now enrolled as members, he is anxious to have every citizen at the same time create a feeling among Richmond's citizens that their chamber of commerce is really run by them. As soon as I have a conference with the board of directors, my first effort for the future will be made public.

"I hope to make the Richmond Chamber of Commerce an organization that will be a credit to the city," Sullivan said today. "It is the duty of the board of directors, I believe, to carry out the by-laws and constitution of the organization and at the same time create a feeling among Richmond's citizens that their chamber of commerce is really run by them. As soon as I have a conference with the board of directors, my first effort for the future will be made public."

COUNCILMEN DECLARE WAR ON TIN CANS

Oakland will roll up her sleeves and put on her old clothes and wage bitter war on tin cans, weeds, rubbish and all sorts of unsightly refuse in the city streets and lots on December 20, under the provisions of a resolution adopted by the City Council this morning at the request of Commissioner W. H. Edwards designating that day as Oakland's "Clean-up Day."

In asking for the resolution Commissioner Edwards called attention of the Council to the recent "clean-up day" held by residents in the Laker school neighborhood, which was picked clean as the house's tooth by citizens with a soundness of school children.

Commissioner Edwards suggested a similar campaign all over the city for the collection and disposal of cans, weeds and rubbish in streets and lots, and urged that civic organizations and improvement clubs be asked to co-operate in the campaign to give the city a thorough cleaning.

Presiding Judge T. W. Harris takes the same stand. Not long since, he suggested, in a trial before him, where a crime against nature was charged, that women on the jury panel be excused from serving. The defendant's attorney refused to consent and made the suggestion one of his grounds of appeal, following his client's conviction, but the supreme court held there was nothing prejudicial to the interests of the defendant in the suggestion and confirmed the conviction.

Attorneys representing defendants, it is stated, object to excusing women because they like to have them on the jury, flouting they are more sympathetic than men, even in cases of such revolting nature.

Attorney Joseph P. Lacey, representing Raymond A. Rapp, on trial before Judge Robinson on a charge of "lewd and lascivious conduct," said: "If women are given the right to vote and to serve on juries they should be willing to accept the responsibilities that go with these privileges."

Judge Robinson said: "The Court has no power to excuse a woman juror because she may object to listening to distressing evidence, but it can be done by the consent of each side, which I believe is the course that should be followed. In the present case none of the women called for service have asked to be excused."

Judge Harris said: "There is no question that women summoned as jurors must serve unless they have some other excuse than that of a desire to avoid listening to objectionable evidence. I am decidedly in favor of excusing them if they request it, but I have been informed that attorneys say women are much more favorable to defendants in such cases and are and for this reason they usually refuse to consent to their dismissal."

Free Women From Trials Where Evidence Revolts Is Contention of Court

Shall women be compelled to serve as jurors in cases involving revolting evidence when they have no other reason which will provide a legal excuse for dismissing them? Superior Judge E. T. Robinson, who now is hearing a case of that sort in the new criminal department, believes they should be excused, if they request it, by consent of attorneys for both sides, though such a reason is not a legal ground for discharge.

Presiding Judge T. W. Harris takes the same stand. Not long since, he suggested, in a trial before him, where a crime against nature was charged, that women on the jury panel be excused from serving. The defendant's attorney refused to consent and made the suggestion one of his grounds of appeal, following his client's conviction, but the supreme court held there was nothing prejudicial to the interests of the defendant in the suggestion and confirmed the conviction.

## S. F. SUSPECT IS SHOT DOWN BY POLICEMAN

SAN FRANCISCO, Dec. 4.—John Welden, employed as a strikebreaker on the waterfront, was shot and severely wounded at Eddy and Larkin streets, early this morning when he attempted to shoot Policemen William Bennett and Emmet Hogan while they were taking him into custody as a suspected holdup man. Welden aimed his revolver at the officers, who owe their lives to the fact that he had failed to shift the safety catch on his weapon.

While en route to the Central hospital to have a deep bullet wound in the groin treated, Welden, according to the police, admitted having held up Leslie Eisenbahr, a watchman in a garage at Broadway and Larkin street a short time before he was arrested by the officers. Papers and a small amount of money taken from Eisenbahr were found in Welden's possession.

Adding under instructions to intercept and question all suspicious characters, Bennett and Hogan, shortly after 2 o'clock this morning, observed Welden slinking in the shadows of buildings on Larkin street between Eddy and Ellis streets. They advanced on Welden, who within a short distance, ordered him to halt and throw up his hands. Welden wheeled upon them, drawing an automatic pistol from a rear pocket, but failed to shoot.

After running a few feet, Welden turned on his pursuers and again attempted to shoot. This time Hogan opened fire, and Welden collapsed on the sidewalk, then threw up his hands and submitted to arrest. At the Central Emergency Hospital it was said he would recover from the wound.

According to the police, Welden recently came to San Francisco from New York. They are investigating his career in the belief he may be one of several holdup men who have been active in mid-town, residential and business sections. Aside from admitting holding up the Pacific Garage, Welden refuses to disclose any further information in connection with his movements. Up to early today Eisenbahr had not reported the robbery to the police and is being sought for to give further details.

At the time of the armistice 10,000,000 pounds of food a day was being shipped overseas.

## Talented Oakland Co-Ed Captures Big U. C. Honor

Photo by WEBSTER  
DONNA WATSON.

BERKELEY, Dec. 4.—Capturing one of the most sought-after honors on the University of California campus, Miss Donna Watson, talented Oakland co-ed, has been chosen to direct women's journalistic activities on the university campus next semester.

Appointment of Miss Watson as woman's managing editor on the "Daily Californian," student daily paper on the campus, has just been announced in campus circles. Miss Watson, a member of the Junior class, was selected by Miss Allen Verne, present women's managing editor, who leaves college with next year's graduating class. Miss Watson is a member of the Delta Delta Delta sorority, and a leader in women's activities on the campus. She is a daughter of Mr. and Mrs. H. C. Watson, 825 Adeline street, Oakland.

From her position as managing editor, Miss Verne will succeed Miss Doris Peoples as woman's editor of the college paper next semester. Among the co-eds selected for the staff of the "Californian" to preside over women's activities on the campus are the following well known students: Greba Armstrong, Isabel Bayless, Helen Bell, Marjorie Blair, etc.

Class Chedie, Elizabeth Halley, Marjorie Hughes, Marie Humphreys, Aileen Jatta, Margaret Pene, Mary Siler, Lucile Sleeper, Alma Smith, Jacqueline Seyder, Edith Speller, Kathryn Springborg, Dorothy Staats, Muriel Storms, Virginia Sover, Evelyn Thompson, Miriam Trowbridge, Daisy Ward, Catherine Weger and Grace Ziegenfuss.

## 110 NEW FIRE FIGHTING JOBS ARE CREATED

Providing for the introduction of the new two-platoon system in the Fire Department on January 1, the council today passed an ordinance introduced by Commissioner of Public Health and Safety F. P. Morse creating 110 new positions in the Fire Department.

During the discussion of the measure a report was received from Chief Elliott Whitehead that the new system, which will increase the personnel of the department to 350 members, will result in an increase in the department salary roll of \$135,000 a year. Commissioner Frederick Soderberg commented on the fact that the result will be an increase in the tax rate of 15 or 16 cents.

The new positions created and the annual salaries were as follows: Two battalion chiefs, \$2200; 23 lieutenants, \$1800; 15 engineers, \$1900; 2 chiefs operators, \$1740; 82 hosemen, \$1650.

The position of police inspector in charge of the Bureau of Criminal Identification, recommended Tuesday night by the Civil Service Board, was created by the council at the request of Commissioner of Public Health and Safety F. P. Morse. Inspector Harry Caldwell, who organizes the bureau and has been its head for years, will be appointed to the place pending an examination. The salary attached is \$185 a month.

An ordinance was passed closing and abandoning Cleveland avenue between Merritt avenue and Lake Shore boulevard, following a report from the Street Department that the street is only a steep hill and not passable. The thoroughfare will be turned over to the Park Department for conversion into a park. Protests against the improvement of Lynde street were overruled by the council this morning on the recommendation of Commissioner of Streets W. J. Bacus and the work was ordered done. On a report from Bacus that the traction company has refused to improve the street and that he wished time in which to "bring pressure to bear" against the company, hearing of protests against the improvement of Fruitvale avenue between East nineteenth street and Foothill boulevard was postponed until February 12, 1920.

An ordinance creating the position of trench inspector in the Department of Streets, was given final passage today. The place has been filled by the appointment of Andrew May Jr. to the position.

Mayor John L. Davis.

## I. W. W. Charged With Slaying Soldiers

SEATTLE, Dec. 4.—Dick Graves, alias Jack Lewis, alleged I. W. W., was taken to Centralia, Wash., today to face a charge of first degree murder which was filed Nov. 17 and which alleges Lewis is one of the several I. W. W. who fired into an armistice day parade at Centralia Nov. 11, and killed four former American soldiers.

## Bay District Housewives Form Nucleus of National Anti-H. C. L. Organization

Seeds for a national organization of housewives which may take concerted action on matters affecting the home were sown yesterday at a meeting of delegates from the San Francisco, Oakland and Berkeley Housewives' Leagues, held at the Berkeley city hall for the purpose of forming a bay city organization. Simultaneous with plans for extending the organization to the state and nation, action was taken by the score or more delegates representing housewives on both sides of the bay concerning laws on matters of importance. Only by careful investigation and calm action can the purpose for which the league was organized be gained, declared the delegates.

Mrs. L. W. Bartlett, president of the Berkeley league, at whose institution the meeting was called, presided as temporary chairman with Mrs. A. W. Swent of Oakland as temporary secretary.

**RULES OF ORGANIZATION.** In a lively discussion which marked the meeting the delegates went on record as sponsoring the following rules for the organization:

That no hasty action be taken upon the floor of any league in the federation. That any action be taken and the policy of the league expressed only after a thorough investigation, and that various organizations make certain steps to avoid "thoughtless" expressions of opinion on the part of one body which may affect the work of the affiliated leagues.

That while some interests are local the majority are common in the bay cities and effective action can only be taken by a consolidation of efforts. That any efforts toward legislation can be effectively accomplished only by the united work of the central machinery of the federation of leagues.

**WILL MEET AGAIN.** Resolutions were adopted providing for the calling of a second meeting of the bay city delegates early in January and requesting the appointing of the president and five delegates from each league for representation at the gathering. Such delegates it was voted should form the personnel of the federation and shall be given the power of perfecting the affiliation of the bay city organizations. Delegates from each league were instructed also to ascertain the type of organization desired by the body they represent while the by-laws of the central organization it was voted would in no way interfere with the individual bodies of workers.

Plans to extend the organization to the state and nation were discussed. Mrs. Grace M. Haring, chairman of home economics in the California Federation of Women's Clubs at Berkeley delegate at yesterday's meeting, will take the message of housewives to the state association.

Delegates at yesterday's meeting from the three bay cities already boasting Housewives' Leagues were as follows: Mesdames R. A. Dean, S. C. Lingge, A. Parker, W. T. Black, Grace M. Haring, Lydia Wolff, M. E. Jaffa, L. E. Grafton, H. J. Platts, L. W. Bartlett, A. W. Swent and A. T. Kalaf and Miss Clara Sikes.

## JAIL FIFTH IN DRIVE AGAINST CAR LOOTERS

RICHMOND, Dec. 4.—A fifth arrest was made last night by Chief of Police Wood in the alleged car-lifting plot unearthed here. S. L. Whitley of 523 Twelfth street, Richmond, an employee at the local Santa Fe shops, was lodged in jail. Other arrests are impending, it is announced. Whitley is an engineer-ro-man.

Whitley is the third railroad man arrested in a plot that is said to have involved the looting of freight cars in local yards here with the loss of thousands of dollars' worth of property.

A considerable quantity of this has already been recovered, and the police are on the trail of more. The stolen property includes almost every kind of merchandise article, it is alleged.

Richmond police say that it was through the loss of a considerable quantity of automobile tires, shipped from Akron, Ohio, firm, that the thefts were traced to Richmond.

The men will be turned over to the federal authorities as soon as the investigations are completed, it was announced. A number of statements from the men under arrest are said to have been taken.

The other four now held are: F. V. Westlake, 6477 Telegraph avenue, Oakland; W. H. Bond, Santa Fe engineer; Curtis Byers, Santa Fe switchman, and K. Auvick, junk dealer.

## CURRENT TOPICS LECTURE

"The President's Message and the American Situation" will be discussed tomorrow morning by Miss Suzanne Everett Throp of the English Department of Mills, before the Living Issues section of Ebell, meeting in the Harrison-street clubhouse at 10 o'clock. Mrs. Louis Cockcroft is curator. The lecture is open to section members only.

## "Union Veterans" of Oakland in Session

An organization calling itself the Union Veterans of Oakland has adopted resolutions opposing certain "propaganda" which it declares improperly represents the unions of former service men.

"This propaganda has been falsely presented to convey the impression that ex-service men condemn the efforts of organized labor to secure an adequate living wage," the resolution begins.

The new organization endorses and pledges full support to the striking shipyard workers.

## BRITISH SHIP'S CREW STARVING AND BEDRIDDEN

BOSTON, Dec. 4.—The British schooner St. Claire Theriot is in real distress. Fever is raging on board, two of the men have broken legs and the ship is short of provisions and several hundred miles from shore. Assistance is wanted immediately, according to wireless messages received here today.
